MISCELLANEOUS REVENUES	\$59,701	\$54,324	\$51,850	\$33,700	\$33,700	\$33,700

General Fund revenue estimates are based on projections, historic trends, current conditions and agreements. Revenues include property taxes, franchise fees, user fees, and reimbursements. The beginning fund balance is improved this year. Increases in property taxes are limited to a maximum of 3% per year in Oregon. However, the increases in recent years have been more modest. The tax assessed value determined by Linn County went up this year from \$172,873,267 in FY 2015-16 to \$178,526,256 in FY 2016-17. This change in tax assessed value increases the City's expected property tax revenue for FY 2016-17. It should also be noted that vacant properties are not likely to pay property taxes in this fiscal year, and that property owners have up to three years to pay this year's property taxes. This does impact how we project property tax revenue.

This year, the budget assumes the construction of three single family dwelling units for the projected building permit revenue. This is a conservative assumption, and staff suspects the actual number of dwelling units will be five to 10 dwelling units.

ENDING FUND BALANCE	\$631,793	\$687,161	\$0	\$0	\$0	\$0

The projected property tax revenue represents approximately 32% of the General Fund expenditures, including contingency. This trend has been consistent over the past three years. Some expense lines in the General Fund have been consolidated, but overall the expenditures are fairly consistent with prior years.

This year there is one Special Payment the city will be making from the General Fund to the HART Center. The HART Center and City are becoming separate organizations. The Special Payment will be the audited ending fund balance of the HART Fund for FY 2015-16. This will ensure any money the HART Center has been gifted, granted, or otherwise will go with the HART Center as they transition from the city. The budgeted \$65,000 will more than cover the expected Special Payment donation.

The General Fund is the backbone of the entire city budget. Keeping a healthy contingency in this fund is vital, as it helps us with our cash flow between the beginning of the fiscal year in July and the arrival of property tax revenue in November. The proposed contingency this year has increased by roughly \$75,000 to \$342,046.

The General Fund helps support other city budget funds such as the Office Equipment Fund, Street Fund, and the Library. The transfer to the Street Fund has been increased from \$1,500 to \$10,000, while the transfer to the Library has been increased by \$7,000 to \$95,000.

The Street Fund was established for the purpose of construction and maintenance of City Streets. Revenues primarily come from the gas tax and grants. In 2014, the City was awarded a \$50,000 Special City Allotment Grant to repair Moore Street. This project will be completed in the summer of 2016.

As noted above, the beginning fund balance varies from year to year depending on the number and type of street projects completed each year. This year the beginning fund balance is increased from last year. The inter-fund transfers have also been increased from the \$1,500 to \$10,000 each from the General, Water and Sewer funds. The increase in transfers will assist with street maintenance projects, and staff are working to find additional and more sustainable funding alternatives for street maintenance projects.

Staff have identified a few streets projects it would like to complete during FY 2016-17. The first project is to reconstruct Moore Street from 1st Street to 3rd Street. This project will be completed using a combination of Special City Allotment (SCA) grant and Harrisburg Redevelopment Agency dollars. The awarded SCA grant is for \$50,000. The second project is reconstruction of Kesling Street from 1st Street to 2nd Street. This project is listed on the city's Capital Improvement Plan and a portion of the project may be SDC eligible. The last construction project will not affect the street fund, because it is an SDC project but is worth mention here. That project is the extension of Burton Street east of 9th Street to the terminus of the right-of-way. This new street section will provide access and street frontage to 6 undeveloped or underdeveloped residential lots.

Lastly, city staff will be conducting the planning and pre-engineering work for the new construction of approximately 445 feet of 9th Street south to Sommerville Loop. The planning and engineering work will take place during Fiscal Year 2016-17, and the actual construction will take place in FY 2017-18. This project is also SDC eligible, and needs to be added to the city's CIP.

Over the past year, the HART Center Board has decided it is in their best interest to separate from the city organization and become an independent non-profit organization. The HART Center Board and Director have been working hard to restructure and rebrand itself as a community building organization, in addition to the social services and resources they assist in bringing to the Harrisburg residents.

On April 13, 2016, the City Council passed Resolution 1132, eliminating the H.A.R.T. Fund from the city of Harrisburg's city budget, effective July 1, 2017.

On April 13, 2016, the City Council passed Resolution 1132, eliminating the H.A.R.T. Fund from the city of Harrisburg's city budget, effective July 1, 2017. The City Council has committed to pay the HART Center the remaining balance of the H.A.R.T. Fund at the end of the current fiscal year in addition to a \$15,000 annual donation to the H.A.R.T. center. These expenditures are budgeted for and will come out of the city's General Fund in FY 2016-17.

Resource Description	Actual FY 13-14	Actual FY 14-15	Adopted FY 15-16	Proposed FY 16-17	Approved FY 16-17	Adopted FY 16-17
BEGINNING FUND BALANCE	\$19,034	\$21,198	\$23,200	\$25,400	\$25,400	\$25,400

INTEREST REVENUE	\$79	\$74	\$70	\$70	\$70	\$70

The Bike Path Fund is used to create and maintain bike paths and bike lanes in our community. The Bike Path Fund is supported solely from tax revenue and interest revenue. The city receives an apportionment of Highway Fund revenue from the State of Oregon for the Street Fund. It includes a Motor Vehicle Fuels Tax, Motor Carrier and DMV Fees. This money is commonly referred to as the Gas Tax. As required by statute, the Bike Path Fund receives 1% of the total annual tax.

The Bike Path Reserve fund has grown slowly over the past several years, as no bike lane projects have been completed.

ENDING FUND BALANCE	\$21,198	\$23,338	\$0	\$0	\$0	\$0

As noted above, there has not been a bike path or bike lane project in several years. This fund can be used for regular maintenance of existing bike paths and bike lanes, such as restriping bike lanes on streets. There are also bike paths identified in the City's Transportation Plan and Parks Plan, which this fund would support. As city staff completes its street inventory, possible new bike path and bike lane and/or maintenance projects will be identified, prioritized and completed.

The C&ED fund supports community and economic development projects and initiatives. Currently, the lion share of money in this fund is dedicated to the Building and Property Reserve Account line. This money is dedicated through Council resolution for the future construction of a Library building. However, given certain needs in the city such as improved water and streets, the Council may choose to use this money in different ways.

The Harrisburg Public Library serves the community by providing literary and educational resources to our citizens. The Library also provides free internet access, including wireless. The beginning fund balance is up about \$8,000 from last year. The primary revenue source for this fund is a General Fund transfer. The transfer is proposed to increase to \$95,000 this year.

In addition to the General Fund transfer, the Library raises revenue through fees, donations, grants, and fundraisers. The Harrisburg Library Guild, a non-profit organization, financially supports the Library through additional fundraisers.

Budgeted expenditures in the Library are proposed to remain relatively flat this year. The miscellaneous expense line was increased by \$500 to cover costs of Library sponsored programs and activities. The capital outlay expense lines, used primarily for computer and office equipment replacement, have both grown slightly. Contingency is proposed to increase by nearly \$12,000 this year, due to an increase in the General Fund transfer and controlled spending by the Library staff this past year.

The Storm Drain Reserve Fund was created for the purpose of expanding, upgrading, and maintaining the City's storm drainage system. The fund is fully supported through the monthly storm drain fee, assessed to all utility customers. Residential customers pay a flat rate fee of \$3.54, and non-residential customers pay 7% of the prior month's sanitary sewer fee with a minimum payment of \$3.54 and a maximum payment of \$93.75. There is no proposed increase to the storm drain fee for FY 2015-16.

The beginning fund balance is growing as the city made no significant storm water projects in Fiscal Year 2015-16.

A property tax is levied on property inside the City to pay debt service on the City's General Obligation (G.O.) Bond. The City currently has one G.O. Bond from the 1999 Water Improvement Project. The amount levied is and should be very similar on an annual basis, unless additional bonds are issued.

The Debt Services Fund is structured to have an unappropriated ending fund balance of \$66,097. This balance is sufficient to pay the following year's bond payment, which is due before the collection of property taxes in November. The City has one G.O. Bond for the 1999 Water Project. The bond is currently set to expire in 2040.

This fund is used to purchase office equipment, furniture, and office software, as well as pay for maintenance and service contracts for equipment. Revenue for this fund is provided through General Fund, Water Fund, and Sewer Fund transfers. Each of the three funds contributes \$10,000.

The beginning fund balance should slowly grow unless the city makes significant purchases on office equipment in the prior year. The beginning fund balance is proposed to increase by \$6,500 this year.

Other than maintenance and service contracts, office equipment expenditures are on an as needed basis. Staff is modest in purchases and thoughtful when making necessary purchases to ensure the best quality for our citizens and customers. There was a slight increase in the cost of our financial system and an increase to the maintenance and software expense line. The maintenance and software increase will cover items such as maintenance of the city’s website and other information technology support. There are no major planned office expenditures this year; however, the city hall copy machine may need replacement in the next two years.

The Equipment Reserve Fund is used to make substantial equipment purchases for City operations. The City also purchases tools and light duty equipment for the Public Works Department from this fund. The primary revenue source for this fund comes in the form of transfers from the General, Water, Sewer, and Street Funds. The General Fund contributes \$15,000, while the Water, Sewer, and Street fund each transfer \$18,000. The beginning fund balance is slightly up this year. In FY 2015-16, the city purchased a new general purpose utility vehicle and Public Works Truck to replace two vehicles that were sold by the city in 2015.

Expenditures from this fund are not frequent, but occur as necessary. As noted above, the City purchased two public works vehicles this past fiscal year. This fiscal year, the City plans to purchase a commercial lawn mower in FY 2016-17, and hopes to buy a second tractor with several versatile attachments and implements. The purchase of the second tractor will likely be pushed to FY 2017-18.

In the future, the City will purchase smaller generators that can be affixed to the stationary equipment in the City, removing the need for the portable generators.

The Water Fund is an enterprise fund. This type of fund operates on a fee for service basis in a manner similar to private commercial business. The intent of the governing body is that costs to provide water to the public, including system maintenance, are recovered through user charges. The beginning fund balance for the Water Fund is improved from last year and the City will be transferring \$100,000 to the Water Reserve Fund indicating some additional stability to the fund.

Staff proposes no increase to the water rates for FY 2016-17. Minor increases in rates are typical to keep pace with the rising maintenance costs to the water system, and staff suspect small increases will continue this next fiscal year. The Water Fund is trending in the right direction and is healthier than it has been in the past. However, it is critical that the City continue to save money to the Water Reserve Fund for future capital water projects. The city's presently conducting a water study to determine whether or not to move forward with water system improvements. These decisions will have a bearing on this fund in the future.

Proposed expenditures in the Water Fund are fairly consistent with prior years. Personnel Services and Materials and Services make up most of the expenditures in the Water Fund. Additional expenditures include capital outlay for replacing water meters, upgrading hydrants, and small construction projects. Lastly, the Water Fund provides support the Equipment Fund, Office Equipment Fund, Street Fund, and Water Reserve Fund. Transfers out of the Water Fund total \$138,000 in FY 2016-17, with \$100,000 being transferred to the Water Reserve Fund.

It is important to note the contingency in the Water Fund is roughly increased by \$70,000, which is a key indicator in the health of the fund. However, city financial resources are likely to be negatively impacted by increases in PERS and the recent changes to Minimum Wage laws in Oregon. These impacts are likely to show up in the FY 2017-18 budget cycle.

The Sewer Reserve Fund is to accumulate revenue from year to year for major purchases, projects, and services. Transfers from the Sewer Fund are the primary revenue source for this fund. The goal each year is to transfer as much revenue to this fund as possible without jeopardizing the health of the Sewer Fund. The proposed transfer this year is \$150,000.

ENDING FUND BALANCE	\$369,401	\$395,543	\$0	\$0	\$0	\$0

The city's goal with this fund is to build up the capital outlay to pay for future sewer projects. Most major projects will require the assistance of additional funding such as a bond or low interest loans. The City is required to keep a reserve amount of \$125,155 for Debt Services. This is one annual payment for the Waste Water Plant Improvement Revenue Bond that began in Fiscal Year 2006-07. One identified sewer project that will be paid out of this fund is the LaSalle Lift Station. The proposed project would consist of a constructing a multiple pump sewage lift station, building, and 800 feet of new pressurized discharge sewer line in LaSalle Street to connect to 2nd street. Approximately 1200 feet of sewer line on 2nd street would be upgraded and up sized to handle the increased flow.

The lift station is intended to capture sewer flows from the south and southeast areas of the City and reroute them to 2nd street. This is to prevent the unnecessary replacement of pipes in Northern area of the City that currently convey the southern wastewater flows and create system redundancy. Once added to the city's Capital Improvement Plan, the new lift station and oversized piping would be SDC eligible.

The Water Reserve Fund is designated for major purchases and projects for the city's water system. Transfers from the Water Fund are the primary source of revenue for this fund. The beginning fund balance is down slightly from last year, because of expenditures made toward the city's water study. The goal each year is to transfer as much revenue to this fund as possible without jeopardizing the health of the Water Fund. The proposed transfer this year is \$100,000.

ENDING FUND BALANCE	\$162,914	\$179,183	\$0	\$0	\$0	\$0

The city's goal with this fund is to build up the capital outlay to pay for future water projects. Most major water projects will require the assistance of additional funding, such as a bond or low interest loan. The current water master plan requires the oversizing of water main line facilities to provide adequate infrastructure within the city. Staff have identified areas of vital importance to a resilient water infrastructure that need to be investigated and added to the Capital Improvement Plan (CIP). For example, pre-engineering work should be done on the oversizing of the water main on Territorial Street from 3rd to 10th Street. In addition, north Eighth Street from Diamond Hill to Arrow Leaf Avenue should be added and upsized in FY 2016-17. These waterlines are not currently on the CIP, but should be added since part of the projects would be System Development Charge eligible.

ENDING FUND BALANCE	\$369,401	\$395,543	\$0	\$0	\$0	\$0

The city's goal with this fund is to build up the capital outlay to pay for future sewer projects. Most major projects will require the assistance of additional funding such as a bond or low interest loans. The City is required to keep a reserve amount of \$125,155 for Debt Services. This is one annual payment for the Waste Water Plant Improvement Revenue Bond that began in Fiscal Year 2006-07. One identified sewer project that will be paid out of this fund is the LaSalle Lift Station. The proposed project would consist of a constructing a multiple pump sewage lift station, building, and 800 feet of new pressurized discharge sewer line in LaSalle Street to connect to 2nd street. Approximately 1200 feet of sewer line on 2nd street would be upgraded and up sized to handle the increased flow.

The lift station is intended to capture sewer flows from the south and southeast areas of the City and reroute them to 2nd street. This is to prevent the unnecessary replacement of pipes in Northern area of the City that currently convey the southern wastewater flows and create system redundancy. Once added to the city's Capital Improvement Plan, the new lift station and oversized piping would be SDC eligible.

The City of Harrisburg has elected to collect System Development Charges (SDC) as allowed by State Law. SDCs provide a way for residents and businesses that are locating in Harrisburg to help pay for the infrastructure costs that result from their growth. The amount of money collected is directly related to the identified projects from the City's Capital Improvement Plan and anticipated costs for those projects. Some of the projects will cost millions of dollars, which means the SDC Funds can grow quite large. These funds can only be used for infrastructure improvements related to growth, and cannot be used for maintenance. State Law requires that any SDC revenue collected after July 1, 1991 be segregated into separate accounts, based upon the funds that were collected (Transportation, Parks, Storm, Water, or Sewer). Proposed revenue into each SDC Fund is based on a conservative projection of three new single family dwelling units being constructed in Harrisburg during the fiscal year.
