

Summary of Residential Rate Changes for 2023/24

The City Council and Budget Committee voted in the new budget for fiscal year 2023/24 on June 27th, 2023.

Utility bills are a combination of water, sewer, and storm drain charges. Please see the example of the breakdown below.

WATER RATES

	Rate:
Base Charge for Residential Customers:	\$22.16
Plus, Per EUU (Equivalent User Unit*):	\$1.81
*An EUU is equal to 748 gallons of metered water.	

Example: If you used 7 units (5236 gallons) of water this month, this would be your water bill.

Rate: \$34.83 (7 units x \$1.81 = \$12.67 plus base rate of \$22.16)

SEWER RATES

	Rate:
Minimum Base Charge:	\$22.03
Sewer User Fee:	\$ 7.99

Example: If you used 7 units of water in the month of November, this would be your sewer bill for that month.

Rate: \$55.93 (7 units x \$7.99)

Residential customers shall be billed for sewer based upon the amount of water used during the winter months of November through April. During the months of May through October residential customers shall be billed based upon the lesser of (1) the amount of water used during the month, or (2) their wintertime average. Residential customers without a six-month wintertime average shall be billed based upon the lesser of (1) the amount of water used during the month, or (2) a wintertime average based upon the length of time the customer has been at the residence if it is less than six months but not less than two months, or (3) based upon a presumed water usage of 2.81 EUU's per household resident who is at least six years old.

STORM DRAINAGE RATES

	Rate
Base Charge:	\$3.74

Rates effective 7/1/2023 to 6/30/2024
